

Product Change Notification

Product Change Notification Number: DV122010 Date: 01-12-2010

Title: Design change of enclosed jackscrews for the backshell series DVPK and DVZK

Product Identification:

DVPK9 (-K and -BULK/100 packaging versions)
DVPK15 (-K and -BULK/100 packaging versions)
DVPK25 (-K and -BULK/100 packaging versions)
DVPK37 (-K and -BULK/100 packaging versions)
DVZK9 (-K and -BULK/100 packaging versions)
DVZK15 (-K and -BULK/100 packaging versions)
DVZK25 (-K and -BULK/100 packaging versions)
DVZK37 (-K and -BULK/100 packaging versions)
DVZK50 (-K and -BULK/100 packaging versions)

Reason for Change: **Design** Processing Logistics **Material**
Quality / Reliability Manufacturing Location Other

Change Description:

This PCN is related to further improvements of DVPK and DVZK series with the design change of the jackscrews enclosed the backshells. This change is related to creation of more similarity between angled cable outlet backshells and straight cable outlet backshells, where the design of jackscrews with coloured plastic knobs on metallic screws already exists. Further more are the Ni-plated surface of the jackscrews replaced by Zi-plating to eliminate some of the allergenic subjects. Previous version with solid metal jackscrews will be available after 01-04-2011 upon request.

Qualification Data: Available now Available in WMY___ Not applicable
Samples: Available now Available in WMY 100311 Not applicable

Quantifiable Impact on Quality and Reliability: None

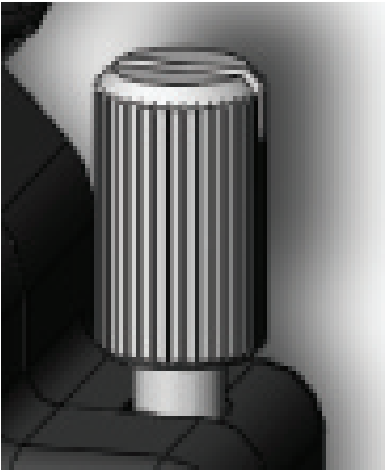

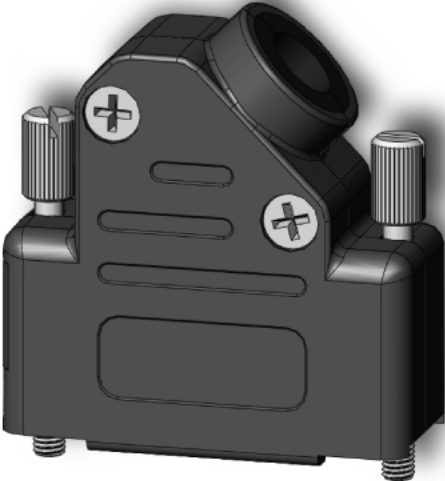

Implementation Date: 01-04-2011
