CONNECTORS, PARTS AND
EXCELLENCE SINCE 1974

OSSI®: CONNECT TO SAFETY

CASE: SAAB JAS-39 GRIPEN

Ossi Connectors is preferred supplier of the ground communication connector system for JAS Gripen over the last 30 years. By providing reliable and durable construction, a zero-defective rate is achieved.

CONNECT TO EXPERIENCE

OSSI Connectors are experts in interconnection solutions: With a successful track record since 1974,

we have an unmatched experience within design, engineering and manufacturing. Our engineers' intuitive collaboration with our production teams, material suppliers and clients gives you the edge in getting things done right from the start.

Connectors and backshells since 1974

CONNECT TO INNOVATION

We are continuously updating on market trends, materials, design solutions and standards to keep our edge.

Being the originator of several back shells and optimizing our products through constant product development, we stand as your guarantee for innovations that pay off.

PHILIPS MRI – using OSSI Connectors

CONNECT TO CAPABILITIES

Our finely tuned skills and solid manufacturing power gives you the ability to choose a one-stop partner,

no matter your desired output and scale. Offering both standard solutions and custom designed innovations; our manufacturing site in Maribo handles all stages to produce the components in one integrated process.

Ericsson – using OSSI Connectors

CONNECT TO KNOWLEDGE

We have a vast, documented knowledge of how to save you time and cost.

We provide in-house research & development for standard solutions and provide expert-based technical assistance for customers when developing new components within interconnection solutions.

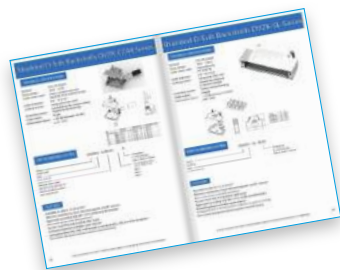

Bombardier – using OSSI Connectors

CONNECT TO FAST DELIVERY

We offer a large variety of standard components at our site with 1000+ items delivered from stock with speedy, efficient logistics.

And whenever you need custom designed solutions, our integrated development and manufacturing gives you short delivery time, going from task to delivery much faster than separate processes.

Online & print catalogue updated continuously

CONNECT TO PROFITABILITY

By using our decades-long, specialized knowledge within interconnection solutions, we are here to help you achieve the optimal solution for your need.

From design to finished product and beyond, we stand as your guarantee as connector supplier. Ossi Connectors provide solutions that meets relevant standards, using materials optimized to match safety and profitability over the product's full life cycle.

PI hexapod linear encoder – using OSSI Connectors

DISCOVER OUR PRODUCTS AND SERVICES:

- Design and development
- Plastic moulding
- Subcontracting
- 1000+ products for fast delivery
- CAD/CAM in SolidWorks®
- Tools and prototype makers
- Assembly of standard and custom designed products
- Logistics and quality control
- Dedicated in-house Moulding, Stamping, Turning and Milling Departments
