

# Product Change Notification

Product Change Notification Number: DT110321

Date: 11-03-2021

---

Title: Design change of backshell halves for item DTZK9 (item #DTZK9-D5)

---

Product Identification:

DTZK9 (-K and -BULK/100 packaging versions)

---

Reason for Change: **Design** Processing Logistics **Material**  
Quality / Reliability Manufacturing Location Other

---

Change Description:

This PCN is related to further improvements related to part number DTZK9, kit packaged and bulk packaged versions. In connection with renewal of the tool and moulding cavities, minor design changes and improvements of backshell halves are implemented. Due to this change existing version and new designed version can not be mixed in assembly. This notification will be enclosed all packages of new parts during period 11-03-2021 until 01-07-2021. Existing version will gradually be phased out.

---

Qualification Data: Available now Available in WMY\_\_\_ Not applicable  
Samples: Available now Available in WMY 100321 Not applicable

---

Quantifiable Impact on Quality and Reliability: None

---

Implementation Date: 11-03-2021

---
